FOREWORD

After nearly twenty years in the Dahlia business with Miss M. G. Tyler, my sister, who passed away a year ago, it is with regret I find it too hard for me to carry on alone, and at the end of this season I am intending to retire.

As the business member of the firm I am not known to our many customers except from my name on the letterhead, as all letters were signed with the firm name, M. G. Tyler, with either her initials or mine.

Through correspondence our customers seem like personal friends, and I take this way to thank you all for your many favors and to solicit a continuance of them through the coming season, and to inform you in order to liquidate my stock, which is the best we have ever had, I am offering you my 1938 catalogue with every dahlia listed at a drastically reduced price, with the exception of SHIRLEY TEMPLE, winner of the American Home Achievement Medal at our dahlia show in September.

NEW AND OUTSTANDING FOR 1938

CHARLES L. MASTICK (FD). Winner of American Home Achievement medal. Featured on two Honor Rolls and selected for trial at Wisley in 1937. Immense exhibition flower, pronounced the best one for florists since Jersey's Beauty, has all the good qualities, strong stem, large size, free bloomer and will keep for a week without showing a withered petal, a good root grower and of beautiful and unusual color. A bright orange deepening to darker in center, reverse grenadine pink which suffuses and brightens the flower, and its form is perfect. Having a good stock we are pricing it low to be within the reach of all.....\$3.00

SHIRLEY TEMPLE (Not the ball dahlia of that name) but a charming semi-cactus the little star saw in Victoria, B. C., two years ago and asked to have named for her. This Canadian dahlia, which won the American Home Achievement Medal at the 1937 show of the Portland Dahlia Society in September, is a lovely opalescent pink shading to cream at base. All blooms come perfect, held erect on cane-like stems with flowers facing. An early and free bloomer and never shows open center. A large flower averaging ten inches\$10.00

BROWN'S PERFECTION (ID). Large and of perfect form of a rich golden bronze deepening to russet and mahogany with a sheen over all. Stems are long and upright and blooms are plentiful during a long growing season. A most pleasing and unusual color\$2.50

Mr. W. H. Brown of Victoria, B. C., is the originator of the two dahlias described above. I am the introducer in this country.
